1. Introduction and Background

- 1.1. The Fibre Processing and Manufacturing (FP&M) SETA was established by the Minister of Higher Education and Training on 01 April 2011 to 31 March 2016. The FP&M SETA (SETA) is a result of the amalgamation of the CTFL SETA, FIETA and the Printing, Packaging and Publishing sectors of the MAPPP SETA. The FP&M SETA facilitates skills development in the following sub sectors: Clothing, Footwear, Forestry, Furniture, General Goods, Leather, Packaging, Print Media, Printing, Publishing, Pulp and Paper, Textile and Wood.
- 1.2. Government has adopted a set of national policies for monitoring and evaluation, that allow for the measuring of intervention's impact towards addressing national developmental challenges. These are within the paradigm of "performance monitoring". These are pronounced in several documents such as the Government-Wide Framework for Monitoring and Evaluation; the Treasury Guidelines for Management of Performance Information; the set of national outcomes and the M&E framework adopted by the Ministry for Performance Monitoring and Evaluation). All these frameworks use the four broad performance criteria of economy, efficiency, effectiveness and equity.
- 1.3. As a government subsidiary FP&M SETA projects and interventions may ultimately be evaluated using these principles. These principles are outlined below and these should be observed through this impact study:
 - 1.3.1. **Effectiveness** is about whether the efforts are achieving the intended goals. Measurement of effectiveness what we produce or deliver, in this case provision of quality training and qualifications that provide access to employment.
 - 1.3.2. **Efficiency** is about improving the cost-benefit ratio. By tracking the time and money taken to achieve various outputs – and performance-managing these aspects – the aim is to improve this.

1.3.3. Equity is about who is benefitting from the interventions, this refers to efforts towards redress, by providing opportunities to previously disadvantaged individuals

1.3.4. Economy is about measuring whether we are getting the right resources; at the right time.

2. Purpose

2.1. The FP&M SETA wishes to procure a suitable service provider/s to implement an empirical research project focused on tracking and tracing of FP&M SETA learning intervention's impact with specific focus to their learnerships, apprenticeships, and bursaries learning interventions.

2.2. The project will serve to understand, explore and document key features, trends, as well as challenges in existing FP&M SETA's learning interventions. However most importantly this study, means to provide a comprehensive impact assessment of the learning interventions as undertaken by the FP&M SETA within its sub- sectors with a view to identifying their potential, impact and challenges. Fundamentally, the research project will contribute broadly to the further development of a sustainable skills development strategy for the FP&M SETA.

2.3. The primary focus of the study is to understand the impact of learning interventions through the tracking and tracing of learners supported within the FP&M sectors. The assignment should provide a clear analysis of information regarding the activities of learners who have completed FP&M SETA programs. Tracer studies are designed to determine whether or not a program is achieving its mission and help to demonstrate its impact.

3. Objectives

3.1. The impact study should provide a broad and detailed picture on the achievements and failures of the learning interventions, covering aspects relating to the number of participating learners, outlining which of these were able to gain access into the entrepreneurship, study further or are

absorbed into the labour market, study further through FP&M SETA subsectors or through other related industries. As well as quality and relevance of training and mentoring.

3.2. In effort to ascertain the impact of the learning interventions the study should venture into questions relating to the relevance and adequacy of the interventions, and general processes surrounding the interventions and the extent to which these hinder or support interventions' success. The study address the following related objectives:

- 3.2.1.** To provide an understanding the profile (age, race, gender, disability, rural/urban) of the learners
- 3.2.2.** To provide an understanding the potential of learner absorption into the labour market
- 3.2.3.** To provide an understanding the efficacy of the FP&M SETA learning programs within its sub-sectors and the broader labour market
- 3.2.4.** To provide an analysis of potential and or existing career pathing opportunities for learners within the FP&M SETA sub-sectors
- 3.2.5.** To understand the impact on productivity and economic growth with sub-sectors
- 3.2.6.** To understand the return on investment on implementation of these programmes

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
