## **2. Purpose of the Programme**

- 2.1.** Global competition has caused fundamental changes in the competitive environment of manufacturing industries. Firms must develop strategic objectives, which, upon achievement, result in a competitive advantage in the market place. However, for almost all manufacturing industries, an increased productivity and better overall efficiency of the production line are the most important goals. Most industries would like to find the formula for the ultimate productivity improvement strategy. The manufacturing world has faced many changes throughout the years and as a result, the manufacturing industry is constantly evolving in order to stay ahead of the competition –

2.2.1. Innovation is a necessary process for the continuous changes in order to contribute to the economic growth in the manufacturing industry, especially in the global market

2.2.2. There are many other vehicles for the growth in the manufacturing industry, one in particular that is gaining momentum is the idea of World Class Manufacturing (WCM) developed by Richard J. Schonberger (in the 80's).

### 3. Objectives

3.2. Benefits of integrating WCM include increased competitiveness, development of new & improved technology and innovation, increased flexibility, increased communication between management and production employees, and an increase in work quality and workforce empowerment.

3.3. The aim of the ILDP 2016 is to develop is to develop high level strategic and innovative management and leadership with a view to expose learners to the model of World Class Manufacturing (WCM) and to expose learners to international benchmarks and best practices. The objective of the programme is to ensure that FP&M industries have the capacity to make products of the highest quality eliminating losses in all the factory fields and an improvement of work standards. There is intense pressure on companies to produce high-performance at minimum costs.

3.4. Many organizations claim that they are world-class manufacturers. **CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

<sup>3</sup> Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.
